

Montgomery Park Playground Project

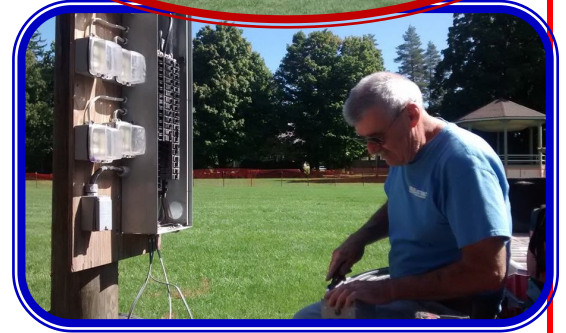

Issue 5

September 30, 2016

A dream doesn't
become reality through
magic; it takes sweat,
determination
and hard work.

Colin Powell

The dream begins!

Brian from Grassmasters and Jim from Springhouse Electric were at Montgomery Park on Tuesday, September 27 getting the place ready for a wild week of hard work and dreams come true.

Grassmasters took up the sod in preparation for the build. Reagan Surveying laid out the stakes that mark all the playground equipment posts on Thursday. The outline of the playground footprint is now visible. After months of trying to envision just where the playground would sit in the park, it is now quite clear!

Springhouse Electric installed an electric panel, outlets and lead cords that will supply all the juice needed during the build to keep our power tools running!

Tool Delivery will take place from 8 a.m. to 4 p.m. on Saturday, October 1. If you are loaning tools, bring them by during that time and the Tool Team, led by Joe Lucia and Paula Parker, will collect, catalog and safely store your tools for the week's work.
